

URZANTE

Proud of our land

The utmost quality tradition, remaining true to the land.

Our estates (La Estanca, La Estanquilla and Ginestares) are located close to the Moncayo Natural Park, in a fertile land where a dam was built by the Romans over 2.000 years ago. It is still preserved and gives it its name, "Finca La Estanca" or "The Dam Estate". Here the Marin Family founded Urzante in 1950.

Back in the day, olives were picked by hand, women and men shoulder to shoulder. Once collected, olives were grounded in grass baskets creating pressure to obtain the precious oil. The oil was kept in clay jars and later bottled. More than 70 years later, we remain true to our original values: Keeping the spirit of tradition and respect for the land and the environment.

Our estates cover a surface of 1.200 hectares with a production capacity of Extra Virgin Olive Oil attaining 2.240.000 litres. The olive varieties grown (mainly Arróniz, Arbequina, Arbosana and Koroneiki) are distinguished by their flavour and properties.

Urzante, our company

/ 75.000 sqm total area of new factory inaugurated in 2010.

/ All in one site (mill, refinery & packing).

/ 7 fully automated production lines.

/ 7 lines in-house PET production.

/ Commitment. Our planet's health is one of our biggest concern. We are aware of the importance of our daily actions on the health of our planet. That is why we take action and recycle 100% of our waste; we supply a cogeneration network thus significantly reduce CO² emissions; and our factory is completely covered in solar panels with which we produce clean and renewable energy.

Location

/ Urzante factory is strategically located in the north of Spain very close to the french border.

/ Well connected to the 3 main spanish ports: Barcelona, Valencia and Bilbao.

/ Efficient and cost saving transport to any destination in Europe and overseas.
